

Fiber Optic Training on DVD

The Light Brigade's Staff Development series of menu-driven DVDs incorporate high-quality video clips, animations and graphics to enhance the learning experience and allow for visual identification of theoretical concepts and "inside" topics. They are unbiased and provide an international perspective, including film footage and standards. Peer review occurred during both the scripting and production phases. For those who plan to use the DVDs as staff development tools, they are menu-based and formatted for easy presentation either by selectable chapters or in continuous play mode.

- ▶ Menu driven.
- ▶ Selectable chapters.
- ▶ Expanded and updated content.
- ▶ Quizzes, with versions for both instructors and students.

Staff Development DVD Titles

	Part #	Theory	Fiber	Cable	Connectors	Splicing	Installation	Testing	Maintenance	Components	Design	Safety	Systems
Introduction to Fiber Optics	W-6D-101	X	X	X	X	X		X	X	X	X		
Fundamentals of Fiber Optics	W-6D-112	X	X										X
OTDR Theory and Operation	W-6D-121	X						X	X	X			
Fiber Optic Test Equipment and Testing Fiber Optic Links	W-6D-131				X			X	X	X			X
Troubleshooting a Fiber Optic Link	W-6D-141			X	X	X		X	X				X
Fiber Optic Cable	W-6D-151	X		X			X						
Fiber Optic Splicing	W-6D-161		X			X							
Fiber Optic Patch Panels, Splice Closures & Pedestals	W-6D-171	X		X	X	X							
Fiber Optic Connectors	W-6D-181	X			X			X					
Fiber Optic Active Devices	W-6D-191	X						X		X	X	X	X
Fiber Optic Passive Devices	W-6D-201	X						X		X			X
Fiber Optic System Design	W-6D-211	X	X								X		X
COMING SOON! Fiber Optic Safety	W-6D-221				X	X	X			X		X	
COMING SOON! Fiber Optic Installations	W-6D-251			X			X					X
